

Activities children will be participating in at location	How does this relate to your curriculum, what outcome are you hoping to achieve	Hazards identified / possible risk	Likelihood could happen <ul style="list-style-type: none"> anytime sometime rare probably never will 	The level of risk is the combination of the consequences and the likelihood of a specific risk <p>H = High Risk</p> <p>M = Medium Risk</p> <p>L = Low Risk</p>	Elimination & prevention control measures <div style="text-align: center; border: 2px solid red; padding: 5px; transform: rotate(-2deg); color: red; font-weight: bold; font-size: 1.2em;">EXAMPLE</div>
Park with zero depth water <small>(Add Park name)</small>	<p>Interacting with community</p> <p>Exploration, care and connect with their environment</p> <p>Play</p> <p>Chn have a strong sense of identity (outcome 1) <i>allowing chn to gain confidence and understand about their own bodies needs, e.g thirst, risk taking and body temperature, emotions etc.</i></p> <p>Children have a strong sense of wellbeing (outcome 3) <i>allowing the chn to engage in a range of activities allows them to understand their likes and dislikes.</i></p>	<ol style="list-style-type: none"> Sunburn and heat stroke Water Grazes, scrapes and other wounds Chn becoming over tired and exhausted (not ok for overall health of chn) Chn moving around outside of supervised area 	<ol style="list-style-type: none"> Rare Sometimes Anytime Anytime Sometime 	<ol style="list-style-type: none"> M/H M/H L/M L/M M/H 	<ol style="list-style-type: none"> Refer to and understand service policy 4.7 ensuring chn have access to shade, water and have sunscreen applied regularly. Refer to and understand service policy 6.4, this is communicated with chn prior to excursion, supervision is paramount around and water source. Ensure first aid kit is taken on all excursions and all wounds are cleaned, parents and service should be notified of incident prior to receiving written report, teach chn to voice when they have had an accident. Be aware of chn's needs, signs and be willing to leave park if required. Pair chn with an older child if possible, do regular head counts, teach and show children the boundaries/perimeter's of play upon arrival <p><i>(must remain aware of water changes at all time, running water, stagnate water, mosquito infested bodies of water and re assess the risk)</i></p>

Remember to complete the risk assessment specifically with your excursions and children needs, this is a guide only. Always take children to the bathroom prior to leaving home
